

Vancouver Translink Project Summary

Vancouver Translink - Vancouver, British Columbia

July 2017 to May 2018
January 2021 to December 2022

Project Overview

- TransLink ensures the smooth operation of an extensive network comprising 235 bus routes, encompassing 8575 bus stops, and maintaining a fleet of 1512 buses. This coverage extends the entirety of the Greater Vancouver region.
- By the conclusion of 2020, the bus ridership of Vancouver TransLink is 139,514,100 passengers. On a daily basis, this translated to a ridership of over 382,000 individuals.
- Assembled and deployed 23 Outdoor Dual-Sided Bus Shelter displays as of 2021.
